Foreword:

Welcome to this simple, yet effective guide on how to actually make money online, in the most desirable of ways – PASSIVELY.

Simply put, there are and have been many ways to “make money at home” or “make money online”, but no matter what is out there, they often leave much to be desired, mainly because of one thing:

Lack of detail.

Lack of instruction, lack of detail, these things all lead to confusion and frustration, and a lack of actual earnings.

So this guide has a simple goal:

Teach you the STEPS needed to make money online.

That’s it.

All you need to do is follow along, complete the steps, and you will shortly see yourself making a decent income online, - AUTOMATICALLY.... And best of all, once this is in motion, it doesn’t stop.

You may, in fact you are encouraged to go back and repeat the steps necessary to build on the **passive income stream** which you will be creating for yourself.

It is simple, so all this guide will do, is introduce you to the techniques used, and provide you with the step-by-step instructions to follow.

That’s it. No fluff, no filler, just simple info.

Let us begin.

Introduction:

What is “Get Paid To”?

Well, GPT programs are where you sign up and get paid to do **offers** and **surveys**. Most of the time the offers are 100% free, but there are some higher paying ones that require a credit card such as participating in a blockbuster trial or something similar.

When you sign up for a get-paid-to (GPT) program you have many options for surveys and offers you can complete with different payout amounts. You can do a lot of free \$0.50- \$1.00 offers or participate in some big ones that pay upwards of \$40 or more.

You can make some decent cash by spending several hours a day doing surveys and offers without ever referring a single person to join under you in any program.

- This is the FIRST technique we will focus on:
How to make money taking those surveys and free offers. There are only a few companies to do so with and they will be outlined in this report, as well as a few tips and tools to help you make the most for the least amount of work.

However, there is an easier way to put your GPT earnings on **auto-pilot** so you eventually may never have to do a single survey again, unless you choose to....

- The SECOND is where the real magic is: REFERRALS.
Eventually, this is where the bulk of your passive income will come from. After making money doing surveys and offers, you will refer people in places that this report will reveal. When they join the GPT sites you recommend, they will make money doing surveys, and you will earn a bit of money from what they make.

You will need to refer a decent number of people to get to make \$1,500, \$2,000, \$3,000 dollars or more a month, but it is very possible because it grows exponentially.

With that said, let us begin your journey to passive income.

As you can see, the table on the previous page shows you important information about each one. Study it closely, and you'll see why they were chosen.

There are thousands of these sites all over the 'net, but these would have to be in anyone's top 10. Why? They pay on time (in some cases instantly – check the table), and they are reputable.

So to get started, click the following links and sign up for each one to complete your first step:

- [CASHCRATE](#)

- [GANGSTERGREED](#)

NOTE: When you sign up, most of them will require you to confirm your signup with a code sent to your email, so check your email.

(II) Prepare the information you will give to the programs when doing free offers:

This part is important because you want to prepare your self to be able to take surveys and free offers easily and efficiently, with the least hassles.

Sometimes some survey companies will call you if you give your phone number, sometimes they will email you with many offers if you use your real email. So to get around this, there are suggestions you must take to minimize the hassles:

- =====
- **(a)** When you signed up above you used your “real” email address right? Good. You should. However when taking surveys, you should use a different email address.

I recommend [GMail](#). Click on it and sign up for one now if you don’t have one. After getting one, (make sure to have it ONLY for taking offers) you will use what is called “plus addressing”.

Did you know that you can add a plus sign (+) after your Gmail address, and it will still get to your Gmail account in-box. It's called plus-addressing, and it essentially gives you an unlimited number of e-mail addresses within just one account.

For example if you want to identify your ezine subscriptions. Be sure to use plus-addressing for every form you fill out online and give each site a different plus address.

For example, if your Gmail address is [surveytaker@gmail.com](#) you could subscribe to your favorite ezines using [surveytaker+johndoe@gmail.com](#) and set up a filter to label it Ezines (to access your filters go to Settings->Filters and create a filter for messages addressed to [surveytaker+johndoe@gmail.com](#). Then add the label Ezines).

Set that up for as many filters as you like (based on the offers you fill out example [surveytaker+CashCrateOffers@gmail.com](#).), and the information in your Gmail account becomes much easier to organize.

[This is important because sometimes you can take duplicate offers to get paid more than once, to do so you need a different email address.. using plus addressing solves that little problem as it still uses the same email ☺]

=====

- **(b)** You need an automatic form filler to help you fill out surveys and forms quicker, so get [ROBOFORM](#).

[Roboform](#) remembers all your password information and you can fill out common fields in forms with just one click. It’s free unless you get the paid version which has unlimited storage.

-
- (c) You need to sign up for [Ring Central](#). Click it and sign up for a **FREE PHONE NUMBER!!!**

You're probably wondering "what the hell for" – well as I said earlier, sometimes they WILL call you, and if you do not want to be bugged you need a "real" phone number that you can use to receive messages. So... use [Ring Central](#). It only takes about 1 minute to get one, so quickly get it from [Ring Central](#) now.

Make sure you get the same area code as your real address otherwise your offers might be flagged as fake.

- (d) Get a [PayPal](#) account if you don't have one already

Sign up, get an account and verify your account (they deposit amounts to your bank and you log in to verify how much they sent you). This is the best way to get paid although you can choose other methods such as paychecks.

Okay, at this point you should have:

- I. A Gmail account for your survey email fill outs.
- II. Roboform for all your info to fill forms with one click
- III. A [Ring Central](#) number to enter onto survey forms.
- IV. A Paypal account

Super Duper Tip:

When you get [Ring Central](#), save that number into Your [Roboform](#) passcard. [Roboform](#) allows you to have different "identities".

Create one with ALL the correct info except your email & Phone Number.

Use the Gmail plus address and your Ring Central Number for your "Survey" Profile.

Switch to this profile whenever you are about to take survey & fill out offers.

(III) FILLING OUT OFFERS:

As mentioned earlier, all you need to do is log into your “Get Paid To” accounts Daily, and take offers or surveys.

Free Offers (100% Most Recommended):

You’ll see that there are always offers to take for cash. They want you to fill out information in order to get paid. So, when you do, all you have you do is fill out the correct information and you are set. Once they are approved the offers will show up as part of your totals.

Make sure after each entry, you go back to your account and “confirm” that you have taken the offer. It will then be added to your “pending offers” till they are approved.

Paid Trials (Only Recommended....IF You Keep Track):

There are some offers that **pay a LOT more**, which require you to take a free trial, such as a membership to something... like a blockbuster video rental membership. These require a credit card sometimes, so they can charge you once the free trial expires.

These offers pay the most money because you become a paying customer. However, the thing to watch out for is NOT forgetting when your offers end.

We recommend keeping track of these in a spreadsheet, and CANCELLING BEFORE THE TRIAL PERIOD IS UP. That way, your credit card or debit card never gets charged, yet you still get paid for trying it out.

Repeat Offers (Not Really Recommended Unless You Follow All Steps Below):

Sometimes you may come across some offers that are easy to fill out and you may want to repeat them because they are easy or they pay well.... Generally, this isn’t allowed. Also you may see the offer in [CASHCRATE](#) as well as in [GANGSTERGREED](#) (two favorites). You’re not supposed to fill these in twice... but sometimes they don’t notice. However, they are cracking down now.

To get over this, you “can” use your Roboform to fill the form, and change the email address and the phone number (make sure it has the same area code you are in).

Also, clear the cookies on your computer after each offer. To do this, go to your browser, and click on:

Tools -->Internet Options --> Delete --> Delete Cookies.

Click the button to delete cookies, and your computer is no longer tracked. Do this right after finishing each offer.

When you are done with all offers, cash out your money.

(III) COLLECT MONEY & REPEAT DAILY:

You can get paid Daily. One of the reasons we recommend [CASHCRATE](#) is because it is the easiest one to reach full payout on. No matter when you start, you can reach the minimum payout within a day and request they transfer it to your paypal account, as soon as you have made the money.

Also, with [GANGSTERGREED](#), you can get paid **anytime**, as long as you have at least \$10.00 dollars income from free offers.

So with these two at least, you can potentially get paid daily, so make sure [CASHCRATE](#) and [GANGSTERGREED](#) are at the top of your **DAILY** to do list.

Our recommendation is, to start off with these two so that you get paid right away. Once you get paid, you will immediately realize these are the most trustworthy companies, and that they are not scams.

Most of the other companies pay monthly as long as you have met the minimum payments.

So, make your money daily so you have income coming in, and build up your monthly paychecks as well.

Once you have gotten used to it and have a schedule you follow, the sky is the limit for you.

Everything you've read thus far is all you need to get a steady daily income from surveys and free offers, as well as free trials if you choose to.

So, get to it and start your daily schedule for making income daily.

~Referral Income: ~

Now come the next major part of Get Paid To Programs.
Referral income.

Once you have a regular routine making money daily, you may want to increase this by referring others to the same companies you take surveys and offers for.

As you can see on the chart on page 5, you get a good percentage of the income your referrals make. The highest being with [CASHCRATE](#) after a certain number of referrals. You can earn as much as 35% of the income your referrals make! That is huge.

This is where the residual income comes in. Your referrals need to fill out surveys like you do, as well as refer others.

So how do you get your referrals to do that?

BY GIVING THEM THIS E-COURSE. ☺

Let them see the same steps needed in the first few pages of this report so they know what to do to make money like you. In other words, you may give this report away for free.

E-Mail it to them; upload it to a website so others can download..... you are free to give it away as you wish.

It benefits you because they will make you income.
Just make sure they sign up under YOUR links, which you can get in the “referral” section of all the sites you joined.

How?

Tell them that **after they sign up**, you will GIVE THEM a free guide that will help them make money with Get Paid To programs, and after they do, send them this guide. In other words get them to sign up under your link **first**.

In your referral stats, you can see who signed up under you. Also leave a way for them to contact you in case they need you to send it to them.

There are so many hours in a day so there is a limit on how much you can earn per day doing these surveys yourself. This is where the power of referrals comes in. By having referrals you can multiply your earnings exponentially.
This is why my report is going to concentrate more on how to be a GPT program recruiter rather than simply how to complete offers and surveys for yourself.

So.... How do you get these referrals?

Easy; By Doing The Following...

- Go to forums where people are looking for ways to make money online. Post on threads that you have found a great way to do so, and post your referral link. On these forums the best program to promote are [CASHCRATE](#). Why? It is one of the very FEW sites that actually accept international members. Most other get paid to programs only accept people from the United States.
- Also go to [MyLot](#) and go to the “make extra money” section and talk about [CASHCRATE](#) and [GANGSTERGREED](#) and what great programs they are. Include a link to them. You should be able to get 20-30 referrals a day by using [MyLot](#) alone.
- Also, participate in the [WAHM \(Work At Home Moms\) forum](#) and get referrals that way as well, by suggesting the programs there.
- Another great source for getting referrals is [Yahoo Answers](#). You should answer questions related to making money from home and post a link to your program you are referring.

Some things about [Yahoo Answers](#): Try to answer questions early, also try to leave a link to a POST (a review of the sites, or a *blog* post about the sites) that has your link to the GPT programs, as opposed to the link themselves.... Or a link to where they get this report, or a way to contact you to get this report.

Sneaky Tip: You can create TWO accounts with yahoo and use one to answer a question about. *“What is the best way to make money online for free?”* Meaning, one asks the question, and later you log in and answer with the other account ☺ shhhh.

Promoting

Proof of Payment goes a long way because so many people have been scammed on the Internet before, or have at least heard of scams. Scan copies of your checks when you receive them and take screen captures so you can post proof of payment in any different sites you create and in any discussion groups that accept images. Just remember to black out your name and address for your own protection after you have created the scan. You can do this in the Paint program for example.

People you Know:

Promoting starts at home; my friends are some of my best referrals. A lot of the people we know thought this was a rip off when we first mentioned it to them. But after showing them our checks, they quickly changed their minds.

Also, we have heard of other people creating flyers with their referral link and putting those up (at colleges for example, public bulletin boards at grocery stores, etc.).

Creating Blogs:

One benefit of creating a blog is that you can list all of your referral links in one place. Instead of promoting each link individually, you can promote your blog instead.

You can create blogs here for example:

- <http://www.blogger.com/start>
- <http://www.myspace.com/>

Creating Web Pages:

One benefit of creating a web page is that you can list all of your referral links in one place. Instead of promoting each link individually, you can promote your blog instead.

You can have create a web page here for example:

- <http://members.freewebs.com/>

Posting To Groups, Banner Exchanges, etc.

Yahoo Answers is one example of a Message (or Discussion) Board. But again, Yahoo Answers has policies against posting referral links. You might want to look for other discussion groups to post your referral link.

Groups:

Here are some groups that I post to. This is just a starting point. There are tons and tons of groups on the Internet, and you might find some that are even better than the ones I suggest.

- <http://finance.groups.yahoo.com/group/1st-mlm-advertising/>
- http://finance.groups.yahoo.com/group/Business_Opportunity_Exchange/
- http://finance.groups.yahoo.com/group/home_based_work/
- http://groups.yahoo.com/group/real_home_jobs/
- http://finance.groups.yahoo.com/group/work_at_Home_Secrets/
- http://finance.groups.yahoo.com/group/Work_From_Home_Business/

Banner Exchanges:

Banner exchanges are an interesting way to advertise. By inserting a banner into your web page you automatically display advertisements for other members. In return, your banners will be displayed across the member network.

- <http://www.neobanners.com/>
- <http://www.exchange-it.com/>

Classified Ad Sites:

We have had some limited luck getting referrals on these sites (most are free, *some* you pay for):

CONCLUSION & SUMMARY

You are done!

Did you notice something unique and special about this report?

EVERYTHING YOU NEED TO DO, IS FREE!

This is important to me our friends, and everyone who has successfully followed the **steps** in this report.

This is meant to be a step-by-step guide, not easy reading.

So, you need to have your:

-
- [Gmail](#) account for your survey email fill outs.
 - [Roboform](#) for all your info to fill forms with one click
 - A [Ring Central](#) number to enter onto survey forms.
 - [Paypal](#) account
-

And you also should have joined most if not all the recommended “Get Paid To” programs:

-
- [CASHCRATE](#)
 - [GANGSTERGREED](#)
-

Do your surveys **daily**, and cash out daily or monthly.

Then when you want to add to your passive income, **promote the programs** above like crazy.

Take a couple of weeks to promote them in the forums and sites mentioned, and watch as more people who join from your link in those sites, build your down line income automatically.

That is all it takes to build up to a \$1,500+ dollar a month income.

Once you get there, simply go back to promoting, and you will find that you will need to do less and less surveys daily.

This can seriously increase the amount of passive income you make.

Imagine having hundreds of referrals underneath you taking free offers daily.... That is the extra “secret”.

The final secret is to give away this report to anyone who needs it, and you can do so by placing it on your website and placing a link to it online or on a blog which you can create on [blogger](#) or [myspace](#) for free.

Now Go Take Some Surveys and Make Money!
